Value

Spring Break

\$ 59

1 Web Page / 4 Photos / 12 Months

Eligibility: Co-ed students attending any college or university

***There Will Never Be a Better Time to Explore Modeling !!***

That's right! There's absolutely no better time in your life than right now to check out the many opportunities in modeling. It's a proven fact that most modeling jobs are open to those in their late teens and early twenties—the age of most college students. So regardless of your particular look, you will never be more marketable as a model than right now. Maybe you competed in pageants as a child. Maybe you are curious about what it would be like to model. Maybe you could use some additional income to help with college expenses. Or maybe you just want to try modeling for the fun of it. Whatever your reasons, Donavon has developed the perfect plan to help you get started. We call it our **Spring Break Plan** and we've designed it specifically for the busy college student on a limited budget. While we can't guarantee your success in modeling, we can assure you that modeling represents a multi-billion dollar industry worldwide. New faces and looks are constantly recruited by companies to promote a wide variety of products ranging from cars to electronic equipment to clothing. Opportunities abound in the fields of print, commercial and fashion modeling—and most require **NO** previous experience! For many, the exposure, confidence and experience gained through modeling serve as a launching pad for even greater opportunities in their chosen profession or concentration of study. At Donavon, we know how busy and stressful college life can be at times. We also know that the average college student doesn't have thousands, or even hundreds of dollars to waste on gimmicks and hype. So with that in mind, for less than the price of dinner and a movie, we are offering a portfolio representation plan that gives you up to four photos and your own web page and bio on the DonavonModels.com website for a total of 12 months. This means that the many clients and agencies that use Donavon to fill modeling jobs worldwide will have access to your portfolio for an entire year!! If you spent thousands of dollars and every waking minute for the next 12 months to promote yourself, you could only contact a fraction of the clients and agencies that you will reach by having your portfolio appear on the DonavonModels.com website. In addition, Donavon backs up each of our plans with free consultation, online security features like photo file dithering and comprehensive client registration, a full line of comp and photo products to assist you in furthering your modeling career and an assortment of portfolio development packages for those needing pictures. We will be glad to use photos you already have or for those needing additional photos, we have designed this plan around our most popular and inexpensive **"Capri" Portfolio Development Package** that will provide you with the four photos to use with this plan. When you consider the incredible value and worldwide exposure you get with this plan, you won't find an easier, less expensive way to explore modeling.

**TERMS:** Additional Plans purchased in conjunction with the original Plan are discounted 10%. Use of a Donavon staff or affiliate photographer for portfolio development entitles Member Models to one free additional month of portfolio representation. Additional web pages can be added to any Plan for an annual fee of \$25.00 per page. Unless purchasing a Portfolio Development Package, Member Models are responsible for providing all photos used to comprise their online portfolio. All materials provided by Member Models become the property of Donavon Modeling and may not be returned. If providing their own photos, Member Models should provide high quality copies of photos in lieu of original photos. Allow 3-4 weeks from receipt of Member Registration Packet for portfolios to be uploaded to our website. All photos submitted by Member Models for online portfolio representation and/or marketing require prior release authorization by the Member Model and, when possible, the contributing photographer. Photos, along with a completed Member Registration Packet and payment are required to activate Plans. Listed Plan prices are based on an initial contract period of 12 months, a maximum of four photos per web page and are exclusive of a one-time activation set-up fee of \$25.00 which is due at the time of Plan purchase. Payment for the initial contract period is due in full at time of purchase by either Check, Money Order, Visa or MasterCard. Plan contract period begins on the first day of the month following upload of portfolios. Plan periods beyond the initial contract period are billed annually at the same rate as the initial contract period through automatic recurring transaction debits from the credit card account on file or standard mailed invoicing. Transaction debits from credit card accounts are used only for purposes of paying annual Plan installments. If for any reason Donavon Modeling is unable to process a debit from an authorized credit card account, Plan billing for that period will automatically revert to standard mailed invoicing. Plans may be cancelled in writing at any time; however, payments for Plan periods already received are nonrefundable. **Feature Model Showcase** intermittently displays Member Models' portraits throughout the term of their Representation Plan on the [www.donavonmodels.com](http://www.donavonmodels.com) Homepage. Portfolio bio data is comprised of information obtained from written questionnaires provided by Member Models. Member Model portfolios are used by Donavon Modeling to comprise Portfolio Representation Plans appearing on the [website; www.donavonmodels.com](http://www.donavonmodels.com) composite Member Model photographic materials used for promotional purposes; and online and print commercial, marketing and promotional applications. Prices, options and features are subject to change without notice.
